

Name: \_\_\_\_\_ Topic: \_\_\_\_\_

I can *capture* observations using both text and illustrations to *communicate* what I observed to others.

- 4 The text and illustrations provide enough detail to communicate a clear view of both the observations and current understanding of related science concepts. The information provided demonstrates advanced learning by incorporating interpretation notes, multiple perspectives, and gathered research or facts.
- 3 The text and illustrations provide enough detail to communicate a clear view of both the observations and current understanding of related science concepts.
- 2 The text and illustrations provide some details to communicate the observations and current understanding of related science concepts.
- 1 The text and illustrations capture some observations, but might require further details and explanation for a reader to interpret what was observed or measure the level of understanding.
